Art Unit: 1724

This application discloses the following species of pin arrangements that correspond with the drawing Figures as follows:

<u>Species</u>	<u>Figure</u>
P1	1
P2	5
P3	7
P4	8
P5	9.

In addition, this application discloses the following species of retaining means that correspond with the drawing Figures as follows:

<u>Species</u>	<u>Figure</u>
R1	1
R2	9
R3	10
R4	11.

This application contains claims directed to the following patentably distinct species of the claimed invention:

Claims 27-29 corresponds to species P2-P4;

Claim 30 corresponds to P5;

Claims 31-33 correspond to species P3 and P4;

Claims 34 and 35 correspond to species P4;

Claim 37 corresponds to species R1 and R2;

Claims 38 and 39 correspond to species not shown in any of the drawing Figures.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of pin and retaining means for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 26 and 36 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
